- Ron Kinley

SNAPSHOTS FROM THE YEAR

We have been working with our Haitian partners this past year and are looking back at all that's been accomplished.

Two medical conferences were held at the Clinic of Hope, providing continuing education for Haitian medical professionals.

Construction on the clinic annex continues but enough of the building is finished to use it for meetings and visiting teams.

School is under way with more than 860 students.

The community health program based in Terre Blanche continues full steam ahead. The community health workers have received training on maternal

health and now visit every

Health Training

pregnant woman in each of the three villages where they work to monitor their health, teach about danger signs to watch

for during and after pregnancy, and coordinate emergency transportation for women in labor.

The program leaders are also training traditional midwives on better delivery practices, and gathering pregnant women in mothers' clubs every month to teach health topics. Through their work, mothers lives are being saved.

HAITI FOUNDATION OF HOPE

Merry Christmas

Merry Christmas to all. We're taking a moment this holiday season to pause and remember all that we're thankful for — and that includes *you*, all of our supporters.

We are so excited about the work happening in Haiti: the clinic and its programs continue to expand; people are receiving life-saving food, medicine and clean water; community health workers are educating their neighbors; American teams continue to partner with Haitians to reach those in need; and school kids are learning and growing.

If you haven't yet seen our Gift Catalog, please take a moment to go online and view it. You can purchase items or support individuals to help those in Haiti. Thank you for all you're doing.

*Go tell it on the mountain,
Over the hills and everywhere;
Go tell it on the mountain
That Jesus Christ is born.*
