A YEAR IN REVIEW 2014

So much has happened in Terre Blanche and the surrounding communities this past year. Here are just a few of the highlights.

Economic Development (below) — The micro-loan program continues to assist people in building businesses and providing for their families. Recently, a drip irrigation system was set up in a test garden to help in the area of agriculture.

School Building (below) — Construction on the secondary school building is complete and we couldn't be more excited for these students to have more space to learn and study.

Community Health (above) — Madame Mishu is the leader of a Ti Foyer group, which provides support for mothers. Here, she demonstrates how to make carrot orange juice, and other fresh healthy foods, for malnourished children.

Thank you for all your support. We look forward to continuing the work in Haiti and improving lives in 2015. As always, learn more at haitifoundationofhope.org.
